Goal 4 - Complete

## Current plans

Over the past week, we achieved our goals to get everything completed. Even having different schedules, we managed to meet and get it done. We developed more diligence and commitment.

## Lessons Learned: Ponder Principles

We have gained knowledge about the value of teamwork by performing this job. Although it was occasionally difficult for us to meet because of our varying schedules, we were able to work things out and act professionally. Although we all have distinct personalities, we have learnt how to resolve disputes amicably and to encourage and assist one another. We encourage one another by reminding one another to arrive on time for meetings and to be upbeat.

## Summary of assigned action items -

- Abishek is assigned to remind us of the milestones of our different goals that we have not completed yet.
- Leven is assigned to gather all the warm clothes that we are going to provide to those people we have selected.
- Mausham is assigned to make sure the program is running well, and to think about what we can improve to make a better one.
- Wessly is assigned to set a specific date for the escape room and motivate the group to go.
